Scroll 1	Hero	<i>Eyebrow</i>	FOR COMMERCIAL SYSTEMS	Keep		
Scroll 1	Hero	<i>Headline</i>	Industrial-Grade Produce Intelligence	Replace with: 'Cleaner produce. Lower spoilage. Defensible food safety.'		<i>Benefits-led, per your point #2.</i>
Scroll 1	Hero	<i>Body</i>	Scale your produce cleansing operations with ESTOQI's pay-per-kg model. Zero compromise on quality. Zero capital expenditure.	Replace with: 'Estoqi installs the technology at your facility and processes the produce — using only water. No chemicals. No capital expenditure. Pay only for what you cleanse. Built for cold chains, cloud kitchens, quick commerce, institutional catering, and any food business where what touches the produce defines the brand.'		<i>Names the actual B2B segments.</i>
Scroll 1	Hero	<i>Primary CTA</i>	REQUEST A PILOT	Keep — strong B2B CTA		
Scroll 2 [NEW]	Why Commercial Operations Choose Estoqi	<i>Eyebrow</i>	—	ADD NEW SECTION: 'WHY ESTOQI'		<i>Your point #2 — site has no benefits-led B2B section.</i>
Scroll 2 [NEW]	Why Commercial Operations Choose Estoqi	<i>Headline</i>	—	Built for the food businesses that can't afford to compromise.'		
Scroll 2 [NEW]	Benefit 1 — Spoilage Reduction	<i>Title</i>	—	Cut Spoilage by Up to 50%'	<i>Lab Report: Tomato Shelf Life Study (referenced)</i>	
Scroll 2 [NEW]	Benefit 1 — Spoilage Reduction	<i>Body</i>	—	2× shelf life on fresh produce means fewer write-offs, fewer returns, longer in-store sellability. NABL-tested. Directly hits EBITDA.'		
Scroll 2 [NEW]	Benefit 2 — Food Safety	<i>Title</i>	—	Audit-Ready Food Safety'	<i>FSSAI / NABL certification logos</i>	
Scroll 2 [NEW]	Benefit 2 — Food Safety	<i>Body</i>	—	Up to 99% pesticide removal, 89% microbial reduction — independently verified. Walk into a food safety audit with documented, defensible proof.'		
Scroll 2 [NEW]	Benefit 3 — ESG / Sustainability	<i>Title</i>	—	A BRSR Line Item That Pays for Itself'		<i>Your ESG hook from the original brand profile.</i>
Scroll 2 [NEW]	Benefit 3 — ESG / Sustainability	<i>Body</i>	—	No chemicals. No effluent. Reduced food waste. Estoqi delivers a documented Scope 3 reduction your sustainability team can put directly into BRSR disclosures.'		
Scroll 2 [NEW]	Benefit 4 — No CapEx	<i>Title</i>	—	Zero Capital Expenditure'		
Scroll 2 [NEW]	Benefit 4 — No CapEx	<i>Body</i>	—	No upfront machine cost. Estoqi installs the unit, you pay per kg of produce processed. Scale up or down with your demand.'		
Scroll 3	Business Model — Pay Per Kg	<i>Eyebrow</i>	BUSINESS MODEL	Keep		
Scroll 3	Business Model — Pay Per Kg	<i>Headline</i>	Pay Per Kg. Scale Without Limits.	Keep — strong line		
Scroll 3	Pillar 1	<i>Title + Body</i>	Measure Your Volume / Track daily produce throughput in kg. ESTOQI meters water usage per kg of produce processed.	Keep		
Scroll 3	Pillar 2	<i>Title + Body</i>	Ionize at Scale / Industrial ESTOQI units produce continuous 11.5 pH streams calibrated for high-volume produce cleansing.	Keep		
Scroll 3	Pillar 3	<i>Title + Body</i>	Pay Per Kg Processed / No upfront capital expenditure. Pay only for what you use — a transparent, usage-based model aligned with your operations.	Keep		
Scroll 4	Process Flow Strip	<i>Step 1</i>	Produce Arrives	Keep		
Scroll 4	Process Flow Strip	<i>Step 2</i>	ESTOQI Cleanse	Keep		
Scroll 4	Process Flow Strip	<i>Step 3</i>	Verified Clean	Keep — strong word		

Scroll 4	Process Flow Strip	Step 4	To Market	REPLACE with: 'To Your Operation'	Visual: cluster of small icons (dark warehouse, hotel, retail shelf, kitchen) at endpoint	Your point #3 — 'To Market' is too narrow for the actual B2B audience.
Scroll 5	Expense Estimator (was: Volume Estimator)	Eyebrow	VOLUME ESTIMATOR	REPLACE: 'EXPENSE ESTIMATOR'		Your point #4.
Scroll 5	Expense Estimator	Headline	Calculate Your ESTOQI Impact	REPLACE: 'Estimate Your Estoqi Cost'		
Scroll 5	Expense Estimator	Input Card Title	Your Produce Volume	Keep		
Scroll 5	Expense Estimator	Period Toggle	Per Day / Per Month	Keep		
Scroll 5	Expense Estimator	Volume Input	Volume (kg/day) — default 500	Keep		
Scroll 5	Expense Estimator	Output 1	DAILY CLEANSING CAPACITY — 500 kg / produce processed per day	Keep		
Scroll 5	Expense Estimator	Output 2	WATER USAGE — 1,250 L / ionized water per day	Keep		
Scroll 5	Expense Estimator	Output 3	MONTHLY VOLUME — 15,000 kg	Keep		
Scroll 5	Expense Estimator	Output 4	ESTIMATED EFFICIENCY GAIN — ₹1,200	REMOVE		Your point #4 — it should be cost, not arbitrary 'efficiency gain'. The current ₹1,200 number is also commercially weak.
Scroll 5 [NEW]	Expense Estimator	Output 5 (NEW)	—	Add: 'ESTIMATED MONTHLY SPOILAGE SAVED — ₹[X]' (based on 2x shelf life applied to typical spoilage rate)		This is where the real B2B value sits.
Scroll 6	Ready to Pilot Estoqi	Headline	Ready to Pilot ESTOQI?	Keep		
Scroll 6	Ready to Pilot Estoqi	Body	Join forward-thinking commercial operations already transforming their produce systems with ESTOQI's dual-stream intelligence.	Replace with: 'Run a 90-day pilot at your facility. We install, you process, we measure together. Pay only for what we cleanse.'		Specific, low-commitment, B2B-procurement friendly.
Scroll 6	Ready to Pilot Estoqi	CTA	REQUEST PILOT PROGRAM	Keep		
ADD [NEW]	Client / Pilot Logos	—	—	ADD: Logo strip of pilot partners / clients (even 'In conversation with:' is better than nothing)	Client logos / pilot partner logos	Single biggest credibility gap on a B2B page.
ADD [NEW]	Case Study	—	—	ADD: One short case study/pilot result — even illustrative: 'Pilot at [X]: [Y] kg processed, [Z]% spoilage reduction'	Pilot case study (real or illustrative)
